Upcoming Peer Review Period and System Update

AAAASF is pleased to announce that the Peer Review System has undergone an exciting update. The new system is more user friendly and includes several enhancements including the ability to:

- reset your password online
- easily verify compliance through the new dashboard and reports
- download or print copies of submitted case reviews

Reporting Periods

The most exciting news is that Peer Review reporting will be available year-round. Instead of two windows to report cases and sequelae from the previous six months Peer Review is moving to a real-time, quarterly reporting window. The number of cases reported per physician has not changed. Physicians will be able to report the required three cases and any sequelae that occur each quarter.

The cases collected for Period I 2019 will be reported through two periods allowing facilities to adjust to the new system. As with previous periods there will be a deadline to submit cases. After this deadline there will be a late fee assessed for each physician.

Period I 2019: Reporting for cases occurring January 1, 2019 to June 30, 2019

- [Period I - cases occurring January 1, 2019 to March 31, 2019](#)
- [Period II - cases occurring April 1, 2019 to June 30, 2019](#)

[Translate ▼](#)

Deadline: August 15, 2019

Period III 2019: Reporting for cases occurring July 1, 2019 to September 30, 2019

Deadline: September 30, 2019

If a physician using the facility has performed fewer than six cases during Period I (January 1 through June 30), that information must be reported to the AAAASF office using the [Peer Review Exemption form](#). All the physician's other cases during that period must be reported.

More information including a detailed walk-through, FAQs, and facility login information will be sent later this week. Be sure to add support@aaaasf.org to your contacts list to receive important Peer Review emails.
